

FRAMEWORK FACTSHEET

L•A•S•E•R®

Flexible Procurement

With over 25 years' experience in energy purchasing, we offer a range of products under our flexible procurement framework. Resources are continuously invested in the strategies available to accommodate and take advantage of the changing industry and volatile commodity market.

We have developed three basket options, providing a selection of solutions, each with a different balance of risk and opportunity to meet your requirements. These include:

Please see our **Flexible Procurement Basket Options** factsheet for more details.

Framework details (Gas)

Framework reference: **Gas Flex Y14070**

Start date: **1 October 2016**

End date: **30 September 2020**

OJEU contract notice: **OJEU 2014/S 086-149479** OJEU award notice: **OJEU 2014/S 222-392187**

Available to: **All public sector organisations nationally**

Suppliers on this framework: **Total GP**

Framework details (Electricity)

Framework reference: **Elec Flex Y14069**

Start date: **1 October 2016**

End date: **30 September 2020**

OJEU contract notice: **OJEU 2014/S 086-149494** OJEU award notice: **OJEU 2014/S 222-392271**

Available to: **All public sector organisations nationally**

Suppliers on this framework: **npower**

How to access the framework... →

How to access the framework

Each LASER framework offers a bespoke, OJEU compliant process using service options tailored to suit our customers' requirements. To access your chosen framework, please contact us with the details listed below:

- Site name, address and postcode.
- Billing name address and postcode.
- Site contact and telephone number (for site visit and emergency contact).
- Billing contact and telephone number (for debt enquiries).
- Anticipated volume requirement per annum in kWh.
- Half Hourly (HH) data if HH electricity sites included.
- Current contractual arrangements.
- Current contract end date.

If the start-up date does not coincide with an October anniversary then a bridging contract may be put in place through to the next anniversary.

Key benefits:

- The framework is OJEU compliant.
- We aggregate the purchase volumes of all customers when procuring the total energy requirements. The aggregation achieves benefits in the form of reduced balancing risk as well as providing a more advantageous load shape for the whole portfolio.
- The substantial and well maintained volume has enabled us to negotiate reduced energy supplier management fees that are then passed on to end users.
- For both gas and electricity, we have negotiated a contract where the purchase bids we make are submitted by the supplier into the external market. This means we consistently buy at prices lower than the 'offer' price.
- We fully validate all prices against industry pass through charges and Government taxes and levies to ensure delivered energy prices are accurate for each individual site.

About LASER

Kent County Council (KCC) is the 'Contracting Authority' and Central Purchasing Body (CPB) for gas and electricity framework contracts operated by LASER, as specified in the Public Contract Regulations 2015. As such, other public sector bodies are able to use the contracts in place without having to run separate tender processes. LASER contracts are procured through OJEU compliant tender processes and our expertise and insight into public sector requirements allows us to deliver a valuable service to our customers.

Additional Frameworks

- LED Lighting Fixtures & Fittings
- Water Procurement
- Meter Operations
- Biomass Chips
- Liquid Fuels
- Fuel Cards

All contracts arranged by
LASER
