

## FRAMEWORK FACTSHEET

### Liquid Fuels – Gas Oil, Diesel, Petrol, Kerosene

LASER has over 20 years' experience in arranging Liquid Fuel contracts for the Public Sector. We procure all major fuel types for heating and transport purposes, as well as delivering a range of cutting edge new products and services such as; carbon offsetting schemes, tank monitoring and maintenance, and priority contracts in the event of a fuel shortage. Our large Public Sector customer profile results in suppliers providing low competitive prices and high levels of customer service with delivery available in all areas of Great Britain.

#### Framework details

Framework reference: **Y19016**

Start date: **1 June 2019**

End date: **31 March 2021**

OJEU contract notice: **2019/S 095-229293**

OJEU award notice: **2019/S 020-042653**

Available to: **All public sector organisations nationally**

Suppliers: **BWOC, Certas Energy UK, Crown Oil, Fleetsolve, Rix Petroleum, Standard Fuel Oils**

#### Key benefits:

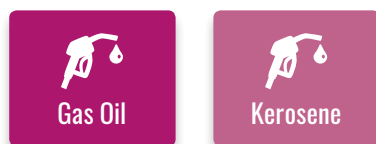

- LASER's Framework is OJEU compliant.
- Customers can order direct from the supplier with LASER maintaining your portfolio of sites.
- Suppliers can be appointed via mini tender or direct award. LASER can facilitate either process with the customer.
- LASER will analyse the results if a mini tender is released, and present a report to the customer for final decision.
- Good supplier relationships result in high supplier response rates.
- LASER keeps track of all contract renewal dates, reviewing and renewing them in a timely fashion.

Fuels Available... →

## Fuels Available

### Heating Fuels

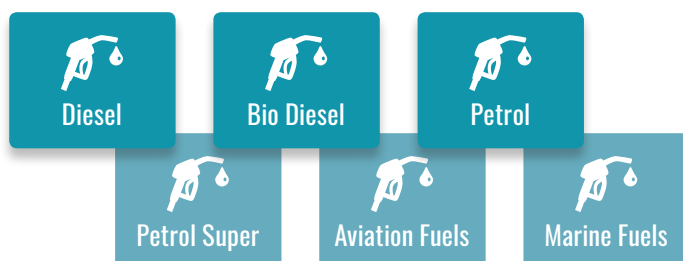

LASER's framework also provides customers access to the following alternative heating fuels; Therma 35, Industrial Heating Oil, Oil Low Sulphur Gas Oil, Renewable Biofuel Heating Oil, Superheat 35 and PrimeHeat 35.

#### Key benefits:

- Up to 4 pence per litre savings but maintains calorific value.
- Potential emission savings with particulates, greenhouse gas emissions, sulphur, heavy metals, halogens.
- Drop-in (no need for tank modification).

### Transport Fuels

LASER's framework also provides customers access to the following alternative transport fuels; Shell GTL (EN15940), Hydro treated Vegetable Oil, FAME-Free Diesel.

#### Key benefits:

- Emission reductions (NOx and particulates) between 5-37% for On-road Heavy Duty transport (buses, lorries, road sweepers).
- Drop-in (no need for tank modification).

## About LASER

Kent County Council (KCC) is the 'Contracting Authority' and Central Purchasing Body (CPB) for liquid fuel framework contracts operated by LASER, as specified in the Public Contract Regulations 2015. As such, other public sector bodies are able to use the contracts in place without having to run separate tender processes. LASER contracts are procured through OJEU compliant tender processes and our expertise and insight into public sector requirements allows us to deliver a valuable service to our customers.

## Additional Products & Services

- Fixed or Hedged Buying
- Online Customer Portal (to monitor & track invoices)
- Automatic Fuel Monitoring & Management
- Priority Contracts Available (in the event of a fuel shortage)
- Selling Off of Redundant Fuel
- Tank Monitoring & Maintenance

All contracts arranged by  
**LASER**
