PURCHASE WITHIN PERIOD (PWP)

LASER Energy have purchased gas and electricity flexibly since 2008, with the **PWP** basket in place since day one. PWP provides purchase opportunities close to the date of supply, whilst also providing a level of budget certainty in the complex and rapidly moving market of energy commodities.

PRODUCT DESCRIPTION

The **Purchase Within Period** option facilitates the purchase of a portion of site volume prior to delivery for a six-month period, whilst the remaining volume may be purchased month ahead or even day ahead. Volume is purchased up to four years in advance of consumption and may be purchased over multiple transactions. The difference between the billed reference price and the out-turn price is settled in the form of a six-monthly reconciliation (p/therm or p/kWh).

CHART OUTLINING HOW THE PWP BASKET OPERATES

VARIATIONS ON THE PWP PRODUCT

- Contract length may be 12, 24, 36 or 48 months
- Supply contracts are currently operating with Total GP and Npower
- Supply start dates to suit budget setting may be April or October
- Volume may include energy from Renewable/Green sources
- Portfolio can be partially awarded

YOUR BASKET CHOICE

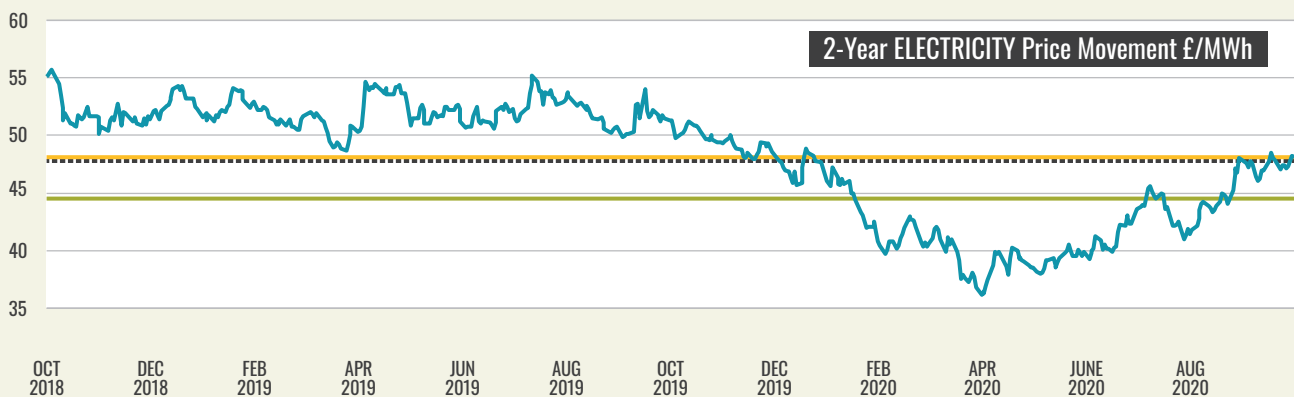

This reflects the usual balance between budget certainty and market opportunity for each basket choice.

	MARKET OPPORTUNITY	BUDGET CERTAINTY	
PIA	●	● ● ●	Weak ●
PWP	● ●	● ●	Average ● ●
FSAR	● ● ●	●	Strong ● ● ●

PRICE OPTIONS	PIA	PWP	FSAR	FTFP

PWP PERFORMANCE

Charts below outlines the performance of PWP 2020–2021 against the Market Average price and also against fixing a price at the end of September 2020.

— WEIGHTED MARKET PRICE — PWP 2020-21 - - - - MARKET AVERAGE — SEPTEMBER 29th 2020

BENEFITS OF THE PWP BASKET

- PWP provides the chance to reduce costs if markets fall within period
- By offering an extended purchase window, more buying opportunities are available compared to more short-term and purchase in advance strategies
- Premiums associated with securing a fixed price are kept to a minimum
- By purchasing within period, you aren't tied to suboptimal pricing when markets change
- Our in-house team of seven energy procurement professionals, with a combined 70 years of industry experience, analyse markets daily to capture optimal wholesale prices

ADDITIONAL BASKET OPTIONS

- **FLEX SET AND RESET (FSAR)**
- **PURCHASE IN ADVANCE (PIA)**

ADDITIONAL SERVICES

Accessed through the **Flex Framework** including, but not limited to:

- Solar Installations
- Battery Storage
- PPA Provision
- EV Services
- Energy Services

What next

Call **0800 484 0840** or email info@laserenergy.org.uk and discuss this option with your Account Manager to help you to make an informed decision regarding your choice of basket.

Once you are comfortable with your decision, you will be required to sign an Access Agreement and a Call off Contract. Please see [2020-24-framework-user-guide.pdf](#).

	OJEU Award Notice: 2018/S 241-550301 – Electricity	
Available to	All public sector organisations	

About LASER

Kent county Council (KCC) is the Contracting Authority and Central Purchasing Body (CPB) for flexible procurement framework contracts operated by LASER, as specified in the Contract Regulations 2015. As such, other public sector bodies are able to use the contracts in place without having to run separate tender processes. The Flexible Procurement Framework under which this product sits was procured through OJEU compliant tender process and meets the requirements of the UK Procurement Regulations. Our expertise and insight into public sector requirements allow us to deliver a valuable service to our customers.
